REVOLT GROWING AMONG RUSS TROOPS

Two Regiments Are In Open Mutiny at Samara.

MUTINEERS CONTROL SITUATION

Foment Among the Soldiers and Sailors at Odessa Continues—All the Dispatches Report the Empire in a Ferment.

St. Petersburg, July 7.—Dispatches received here from Samara state that two regiments, garrisoning that important provincial capital, have mutinied, and presented a series of political and service demands.

The officers promised to satisfy the serivce demands if the mutineers would return to duty, but the men replied that they would be satisfied only with compliance with all of their demands.

The mutineers command the situation, and are indulging in excesses. The situation is complicated by the fact that in Samara the revolutionists are pushing a movement to proclaim a republic in case a general strike is declared, and may seize the present opportunity to further their aims.

The ferment among the soldiers and the sailors at Odessa and Sebastopol continues.

No lifting of the reported rioting and pillaging at Vladivostok has reached the Russian public, but the military authorities, who control the telegraph would be liable to withhold for days any news of such conditions.

Mutiny in Vladivostok.

London, July 7.—The correspondents at Tokio of the Daily Telegraph reports of the Asiatic Steamship company's steamer Colonia, which left Vladivostok on acount of the disturbances there, and which has arrived at Nagasaki, reports that all shops and hotels in Vladivostok were closed by police order, and that on June 30 thirty ringleaders of the rioters were arrested, and eight big cases of dynamite seized by Cossacks.

The same correspondent states that the Russian volunteer steamer Kitai, laden with mitiary stores, struck a mine in Possiet bay and sank.

The executions in Harbin in connection with the revolutionary movement, the correspondent further says, number six hundred.

Slayer Goes to Siberia.

Moscow, July 7—Maria Spiridonovo, who killed Chief of Police Luzhenoff-Tamboy, was sent to Siberia with other prisoners. Spectators at the railway station bade her keep a stout heart to which she replied: "We shall soon be back."

Warsaw, July 7.—The reign of crime and terrorism is so great here that the police have decided to resign.

A few days ago as a measure of protection against assassination by the revolutionists the system of police guard was abandoned and the police were formed into parols for mutual protection against bomb-throwing. But this only made it easier for the terrorists to shoot them. The governor general when apprised of the decision of the police to resign, he threatened to arrest those who failed to appear for duty.

Error is Discovered.

Washington, July 7.—The postoffice department has discovered that an error was made in making out a recess appointment of the postmaster at Dallas, Tex. B. A. Robinson has been appointed to succeed William A. O'Leary, who died about a year ago. The commission was erroneously issued in the name of O'Leary. Robinson has held the office since the death of O'Leary, but had not been confirmed because of opposition from Senator Culberson.

Mutiny of Troops Ended.

Batoum, Trans-Caucasia, July 7.—The mutiny of troops here is ended. The ring-leaders escaped whereupon their followers yielded and are confined in the fortress.

CONSIDER CONNOR BILL.

Committee of the Whole Voted in Favor of the Bill.

Atlanta, Ga., July 7.—The house of representatives met at 9 o'clock Thursday morning, and this after holding an afternoon session form 3 o'clock to 4:30 o'clock Thursday afternoon, with the prospect in store of the adoption of the resolution of Mr. Hall, of Bibb, that on and after Tuesday, July 10, the house shall hold daily morning sessions from 9 o'clock to 1 o'clock and afternoon sessions from 3 o'clock to 5 o'clock. This resolution was referred to the committee on rules.

Nearly the entire day of Thursday was consumed in the consideration of the Connor bill to appropriate $100,000 for the establishment of an agricultural college on the campus of the State university at Athens, the bill being reported to the house Thursday afternoon by the committee of the whole with the recommendation that it do pass.

Friends of the measure were confident of its passage at Friday's session, claiming that the test vote taken on Thursday afternoon in the committee of the whole upon the motion of Mr Flynt, of Spalding, that the committee report the bill as amended to the house with the recommendation that it do pass, presaged a victory when the vote is taken on the question of agreeing to the report of the committee. The motion to report with an unfavorable recommendation was defeated, 53 voting for it and 81 voting against it. It will require 88 votes in favor of the bill to pass it.

Mr. Flynt, of Spalding, led the attack on the bill and made the chief speech against it.

Seizure Attempt Checked.

Constantinople, July 7.—T Turkish attempt to seize further territory on the Persian frontier has been checkmated by the governor of Pushkar, who repulsed the invading force of 300 Turkish regulars and seven hundred mounted armed regulars, with considerable loss to the raiders. The council of ministers here has now instructed the Turkish commander, Zendi Pasha, to withdraw his troops from the most advanced positions, and to avoid further causes for rupture with Persia.

Charles Payne Dead.

New York, July 7.—Charles Payne died in Tenafly, N. J., on Wednesday. For the seven years prior to his death he was general manager of the Panama railroad. He was second vice-president for the Erie for a year and for five years was second vice president of a Philadelphia company which owns natural gas properties around Pittsburg. From 1891 to 1899 he devoted himself to the duties of a consulting engineer. In 1899 he went to the Panama railroad.

Escapes Bars by Marriage.

Montgomery, Ala., July 7.—Notification has just reached the governor of the marriage of John W. Taggart at New Boston, Tex., to his stepdaughter, Miss Maud Alice Freeland. Taggart was paroled from a 7-year sentence for betrayal of the girl on the promise to marry her and care for their child, the girl pleading for clemency. They could not marry in Alabama, so they went to Texas to keep the compact.

Hanson Acquires Coal Properties.

Mobile, July 7.—The Gulf Coal and Coke Company, of Mobile, Ala., has sold to J. P. Hanson, president of the Georgia Central railroad, and his associates, 17,000 acres of coal lands located in Walker and Jefferson counties, this state. The consideration is said to be $1,250,000. Hanson's associates are said to be the Pratt Coal and Coke company, of Birmingham, Ala.

New York, July 7.—The national wholesale Dry Goods association, composed of over ninety jobbers, representing nearly every important city in the country except New York, has called a meeting here for its executive committee next week to take various grievances of the dress goods department of the association's members. The dress goods organization men have just recently been organized

TRAGEDIES THICK IN SOUTH CAROLINA

Negroes Kill White People In Lower Carolina.

FOUR WHITE MEN ARE SHOT

A Series of Tragedies Take Place in the Southern Part of South Carolina—All Happen Independently of One Another.

Savannah, Ga., July 7.—In the lower part of South Carolina there were several tragedies during the past two days. Negroes were quick to shoot and stab and all escaped arrest.

Hugo S. Egelmitch, a young white man, was shot and instantly killed by Dan Finnick, negro, at Moland.

It was stated that Egelmitch and some other white men were at work with several negroes. Finnick cursed one of the younger white men and Egelmitch is said to have told him that he could not afford to let a negro run over him. The next day Egelmitch met Finnick, and another negro, on the road near Moland, and Finnick, without saying a word to him, it is reported, raised his gun and fired. The charge entered Engelmitch's breast and killed him instantly.

Charles Harrison, 14 years old, son of G. M. Harrison, of Beaufort county, was taken to the Park View sanitarium at noon Thursday. It was stated at the sanitarium that he cannot recover. Young Harrison was shot by Julian Mortimer, negro, according to the boy's father, who with two aunts, accompanied him to Savannah. Young Harrison and the negro went out in the corn field to shoot crows, rain came up and they sought shelter under a shed. The boy said that Mortimer told him if he touched the negro's gun he would shoot him. Harrison told his father that he did not think the negro was in earnest and laid his hand on the breech of the gun which was leaning against the wall. As soon as Charles laid his hand on the gun, Mortimer grabbed it and fired. The discharge entered the boy's groin at close range. The father heard the shot and was attracted to the shed by his son's cries. He ran out and the negro escaped.

D. Green, a negro, had his throat cut and was stabbed in the breast and back several times by Moss Riley, also a negro, at Lassiter's mill, near Purrysburg. Green is expected to die. Riley escaped in a boat.

About a mile from Hardeesville, a young son of Lewis Smithers was shot by Henry Hodges, a negro. He will probably recover.

Commended for Heroism.

Washington, July 7.—The secretary of the navy has sent letters of commendation to William Kelley, coxswain, and William Kinner, boatswain's mate of the U. S. S. Columbia, for gallant conduct and heroism in the rescue of a shipmate at Guatanamo Bay, Cuba. On the morning of May 25th, when the Columbia was at anchor in the United States naval station there, J. Turgeon, a seaman, accidentally fell overboard, and was rendered unconscious. Seeing the man in peril, Kelley jumped over the ship's side from the upper deck and with the assistance of Kinner succeeded in saving his life.

Overrules Motion of Defense.

Chicago, July 7.—At the opening of the trial of the Chicago and Alton railroad and two former officials of the company on the charge of rebating, Judge Landis announced that he would overrule the motion of the defense that the jury be instructed to return a verdict of not guilty on eight out of the ten of the counts in the indictment.

TWOMBLEY SWIMS TO DEATH.

He Was the Only Son of New York Capitalist.

Ashland, N. H., July 7.—M. McK. Twombly, Jr., only son of H. McK. Twombley, the well known capitalist of New York and Newport, was drowned Thursday night while swimming in Big Squam lake, six miles from Ashland. Young Twombley was 18 years old. He started to swim from the Groten school camp to Carns Cove, 1 mile distant. He had reached a point a short distance from the shore where the camp is located when he was seen to struggle in the water, but before any of the boys in the camp could reach him he disappeared from view. The body was recovered soon afterwards and was brought to Ashland. It will be taken to Newport.

Twombley's mother was Miss Florence A. Vanderbilt, daughter of the late William H. Vanderbilt, of New York.

House Passed 4,501 Bills

Washington, July 7.—A detailed statement of the work of the house of representatives during the first session of the fifty-ninth congress just closed, has been given out by Winthrop C. Jones, tally clerk, and shows that there were 4,501 bills passed by the house and 362 left undisposed of. The word "bills" is inclusive of bills, simple joint and concurrent resolutions. The total number of laws enacted by this congress is given officially as 3984 while the fifty-eighth congress in both its first and second sessions enacted a total of 2160 laws. These are exclusive of the public and private resolutions, of which there were 54 enacted at the session just closed and 39 in the two sessions of the preceding congress.

Assessed on Franchises.

Sacramento, Calif., July 7—Both the Western Union and the Postal Telegraph companies have been assessed here on their franchises and both are making a fight before the local board of equalization on the ground that if Sacramento can enforce the payment of tax on franchises every city, town and hamlet in the country where they have offices may do likewise and thus burden the companies beyond financial endurance. The assessments here are as follows: Western Union, $90,000; Postal, $35,000. The contention is made on behalf of the companies that they are operating under federal franchises and therefore are not amenable to laws imposing franchise tax in cities and towns.

Grover Cleveland is Ill.

Chicago, July 7.—A telegram was received here stating that former President Grover Cleveland was sick at his home in Princeton and would be unable to come west as he had intended. Mr. Cleveland and James H. Eckels, former comptroller of the currency had planned a fishing trip in Wisconsin, but Mr. Eckels was notified tonight that Mr. Cleveland would be unable to keep the engagement on account of illness. The telegram did not state the nature of Mr. Cleveland's illness.

TERRIBLE FATE OF JIM CLIFTON

Seaboard Train Severed His Head From His Body.

WAS ASLEEP ON THE TRACK

Wheels Made a Clean Job, Cutting Off Head and Completely Stripping Body of Clothing—Hand Drawn From Ash Pan of Engine at Waldo.

The Sun of Thursday, the 5th inst., contained notice of a man who had been run over and killed by a north-bound freight train of the Seaboard Air Line, one of his hands having been raked out of the ash-pan of the engine when the train reached Waldo.

The Ocala Star of the 6th inst throws more light upon the incident, as follows:

"Jim Clifton, who lost his life Wednesday morning at Oak, by being run-over by a freight train, was brought to Marion county by P. R. Lester, when the latter began the saw-mill business at Silver Springs some seven years ago. He was a sawyer by profession, and a good one. He was in the employ of Mr. McDowell of the Oak mill when he lost his life. He evidently laid down on the track with his head on a rail, as his head was severed from his body and part of his head was still in his hat. There was not a piece of clothing left on his body."

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold, but Dr. King's New Discovery saved my life." CONDITION IS PAINFUL.

Claude Scroggins Unable to Turn Over in Bed Since Accident.

Claude Scroggins, the roofer who fell from the roof of one of the dormitory buildings on Friday, has been unable to turn over in bed since being removed to the Odd Fellows' Sanitarium.

It is a miracle that Scroggins is even alive, as he fell a distance of between forty and forty-five feet. The man is in a more dangerous condition than was at first supposed, as it is said his back is injured, besides internal injuries. The physicians hope, however, by close attention to the case, to bring the victim through.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by all druggists.

Mrs. Meagher Dead.

New York, July 7.—Mrs. Elizabeth J. Meagher, widow of General Thomas M. Meagher, who led the famous Irish brigade in the civil war, is dead at her home in Rye, Westchester, of heart disease. She was born in Southfield, N. Y., in 1840, and was a daughter of Peter Townsend. A subscriber of The Gainesville Sun suggests that the Everglades be made a national park. Why not a national aquarium?—Times-Union.

President Roosevelt has declined the invitation to act as chairman of the committee to receive Col. W. J. Bryan on his arrival in New York from his trip around the world.

Those Toledo (Ohio) ice men who are now languishing in jail under a sentence of $5,000 fine each and one year in the work house no doubt sympathize with people too poor to buy ice at the exorbitant price fixed by the ice combine.

The Wauchula Advocate boldly asserts that fraud was committed at the second primary election in Arcadia, and the editor asserts that he has the proof to convict the guilty parties if the authorities wish to prosecute. By all means let the perpetrators of the fraud be brought to justice.

Col. W. W. Lumpkin has withdrawn from the race for United States Senator from South Carolina, leaving the field clear to Senator Tillman. No reason is given for Col. Lumpkin's withdrawal, but the hopelessness of his candidacy, as foreshadowed by the press, no doubt influenced his decision. Many of Senator Tillman's former most bitter political enemies are now ardent supporters of his re-election.

The railroad bill has been fashioned into a club for extorting favors from the railroads in the coming elections. It allows the roads to give free passes to every delegate to a political convention, and as the law does not take effect until after election every Senator, Congressman, and Cabinet officer can get a pass for this fall's campaign. If the roads don't give the passes the delegates will "vote according to the dictates of conscience"; and the passes will be forthcoming, and in all future legislation the roads will be "protected" as heretofore.

UNLIMITED POWERS.

Referring to the recent action of the Trustees of the Internal Improvement Fund in selling a large body of land at private sale, on which the purchaser in a short time almost doubled his money, The Times-Union says:

"The fact that the Board of Internal Improvement can sell public lands at private sale for any price they see fit to charge is an additional reason for not passing the constitutional amendment which seeks to provide for the drainage of the Everglades and thereby place on the market three million acres of land.

"It is folly to give to this board, already having arbitrary power in the sale of land, further arbitrary powers in taxation drainage and irrigation. The board is already an anomaly in a Democratic government in being hedged about by no laws to prevent fraud or dishonesty. Its sphere of operations certainly should not be extended while it is surrounded by no safeguards to protect the people.

"As the law now stands this board enjoys the finest opportunities of graft of any set of men we could mention. If there has been no graft in connection with internal improvement lands in the past, it has been because honest men have always served on this board. As the law now stands, if there is no graft in the future it will be because honest men will always be chosen to serve on this board. What guarantee have we of this?

"The proposed drainage amendment would enlarge the powers and opportunities of this board and project it indefinitely into the future, for the amendment would give supervision over irrigation after every acre of Florida land had been drained, cleared and settled. It would perpetuate the power of taxation, for taxes could be imposed for irrigation under this amendment indefinitely.

"We do not think the people of Florida have ever been brought face to face with as vicious a piece of legislation as that which this amendment would enact, and we have enough faith in their intelligence to believe they will know how to act."

This government has just decided to become a party to a new international crop bureau that is to be established in Rome. The movement is the work of King Victor Emanuel of Italy and the Italian government will bear all of the expense—about $5,000 a year—which it will cost each of the other countries who belong. The idea is to have a central bureau for the collection of crop statistics from all the countries of the world. The reports of harvests and of crop conditions would be made first to the central bureau and thence telegraphed to all the subscribing countries. It is thought that this would help the stability of the world's markets for staple crops of all sorts and would prevent in a very large measure the sudden fluctuations in prices that are now one of the most serious drawbacks of the farmer's existence. This country was wanted as a member of the international bureau because of the importance of the United States as an exporting country, and as the cost was small it was thought a very good thing to subscribe.

One of the best indications of the prosperity of the people of Florida is the unusually short lists of property being advertised for non-payment of taxes by the different county tax collectors. About two hundred more pieces of property had been paid upon in Alachua county up to the day of publication of the tax list than when the list was advertised last year, though the list was published two months earlier this year than last.

It is much easier this hot weather to drain a glass of beer than to drain the Everglades. Besides, the Everglades can wait, the beer can't—Fernandina Star.

SOME SERMONETTES.

It is said that after one of the great Wisconsin forest-fires, a hen was found sitting over her brood, and stone dead. When the scorched body was turned over the chickens ran out unharmed. What a pathetic instance of the life-sacrificing instinct of motherhood! And what added meaning to the simile made by the Man of Gallilee: "Even as a hen gathereth her chickens under her wings!"

When Canova, the great sculptor, was about to begin work on the statue of Napoleon, it is said that his keen eye saw a tiny red line running through the upper part of the splendid block of marble out of which he was to carve the image. Common eyes saw no flaw in it, but the sculptor saw it and would not use the marble. We cannot be too observant of the minutest defects in character.

She rode to church in an elegant carriage drawn by two magnificent horses, with silver-mounted harness. Her coachman was arrayed in splendid livery. She reclined gracefully in a luxuriously cushioned pew. She was dressed in costly silk and velvet, her wraps were of the finest fur, her little pink ears and lily-white fingers blazed with diamonds, and as the preacher told the needs of the suffering poor, she wiped a tear from her eye with a lace handkerchief that cost a hundred and fifty dollars. When the plate came around for the collection, with uncalculating generosity, she laid upon it the princely sum of twenty-five cents and joined heartily in singing—

"Were the whole realm of nature mine
That were a present far too small."
And the angels wept.

A heap of professedly Christian people make us think of a boy who finds a new kind of fireworks. He holds it out just in such a way that he can drop the old thing the minute it shows signs of doing anything.

Luther said: "I would run into the arms of Christ if he stood with a drawn sword in his hands." After all, that's love's highest and noblest reach.

"I saw in Rome," says a modern writer, "an old coin, a silver denarius, all coated and crusted with green and purple rust. I called it rust, but I was told that it was copper; the alloy thrown out from the silver until there is none left within, the silver was all pure. It takes ages to do it, but it is done." Well, there is alloy in all of us, and the education of life is to purge it all away—by sorrows, by disappointments, by failures—

"By fires far fiercer than are blown to prove
And purge the silver ore adulterate."

Jefferson county will soon be in the throes of a wet and dry election, provided the petition obtained by the liquor men is a legal one. The county commissioners will meet on July 11th to decide the matter. Jefferson has been a dry county for the past two years and the probability is that it will remain so. When Alachua county voted out liquor three years ago all kinds of dire prophecies were made by those favoring the open saloon, but they are now compelled to admit that Gainesville has made greater progress during the past three years than during a like period since 1886, and we do not believe the people of this city will ever again vote to go back to the open saloon.

The Oak Hall baseball team has arranged for a series of five games during the coming week, all of which will be pulled off with West Florida towns.

The boys will leave here in charge of Manager J. R. Fowler on Monday morning via the Gainesville and Gulf. They will play Tallahassee Monday and Tuesday, Monticello Wednesday, Madison Thursday and Friday.

The boys are in excellent condition and are confident of coming home victorious, notwithstanding that they will go against three of the strongest propositions in the National game in the State.

The Sun will endeavor to keep its readers posted on the result each day.

It will cure incipient Bright's disease and diabetes, and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S——, Blackwell, Okla., writes: "My baby was peevish and fretful. TELEGRAPHIC NEWS.

Praises American Soldier.

Washington, July 7.—The military appearance of the American soldier was a surprise to George V. Winter, who came from London on invitation of the war department to design certain improvements in the uniforms of the service, which would bring them in line with the acknowledged superior fit and make-up of the British uniforms. "The American soldiers has the best built and bearing in the entire world," declared Mr. Winter on the eve of his departure for New York. "I thought Tommy Atkins was the best in line, so I am surprised at what I have seen here. While the American soldier is not so beefy as the Britisher, he is "smarter' and better set up. He is the best looking soldier in the wrold, superior to the fighting men of Germany, France or England."

166 Settlements Effected.

San Francisco, July 7.—The Call says that one hundred and sixty-six settlements that have been effected by fire insurance companies indicate that in the business section of San Francisco more than $100,000 will be paid in coin to fire losers on the face of the adjustments made on losses that have already come before committees. The average adjusted loss in the 166 instances mentioned is $84,325, the total payments going $14,000,000. The round value of the 166 properties is given at $19,000,000 by the adjusters. Consequently the reduction for earthquake damage and for all causes in the adjustment is $5,000,000.

Bryan Was Only Guest.

London, July 7.—William J. Bryan Friday lunched with Major John H. Beacom, the United States military attache, so that War Secretary Haldas and Mr. Bryan could meet. No other guests were present. Ambassador Reid and Mrs. Reid gave a luncheon at Dorchester house Friday to a large party of visiting Americans, including Paul Morton and Mrs. and Miss Morton, Bishop William P. Lawrence, of Massachusetts, and Miss Lawrence, John W. Yerkes, commissioner of internal revenue, and F. O. Keeler, former governor of Connecticut, and D. O. Mills.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average baldheaded man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

SKIN DISEASES

ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetter, Psoriasis, Salt Rheum and skin diseases of every description.

THE ITCHING WAS ALMOST UNBEARABLE.

Dear Sirs—My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs to do so.

Escondido, Cal. L. MARNO.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In ***TETTER*** the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. ***ACNE*** makes its appearance on the face in the form of pimples and black-heads, and is particularly disagreeable because of its unsightly appearance, while ***PSORIASIS,*** a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is ***SALT RHEUM.*** It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

SSS

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

Kills Self Trying to Kill Dog.

Carpentersville, N. Y., July 7.—Jacob Boyer bled to death from a gunshot wound inflicted while he was attempting to kill a dog that was supposed to have gone mad from the excitement of the celebration of the Fourth. When the dog began to show signs of rabies, Mr. Boyer followed it into the yard and shot it. The dog did not die at once, and as Mr. Boyer leaned over and struck it with the but of his revolver, the weapon was discharged and the bullet entered the unfortunate man's abdomen.

Treasurer Kelley, it is alleged, failed to account for certain interest-bearing warrants supposed to have come into his possession.

THE GOORALS OF POLAND.

Honest, Hospitable and Brave, but Obstinate and Quarrelsome.

The character of the goorals has nothing in common with the humble peasants of the low country. In their good qualities and faults they rather resemble the proud noblemen of Poland. They are vivacious, honest, hospitable and full of pride, bravery and chivalry, for which one may always count. But their defects are grave. Obstinacy and quarrels lead them often to [illegible] its, the lack of thrift is frequent [illegible] them and superstitions [illegible] at every step. They love [illegible] and in their songs praise their [illegible] peaks, spruce forests and the [illegible] and eagle. They build their [illegible] of logs, which they constantly observe and consult about wealth [illegible]. A gooral cannot live without [illegible] mountains, and if he sometimes [illegible] them homesickness will soon bring him back.

They are very religious, but their Christian faith is mixed with old superstitions, and the Roman Catholic rites are mingled with weird, often very picturesque, usages which have their origin in the old Slavonic paganism. So, for instance, on St. John's night Sobotka is celebrated by [illegible] bonfires on fields and hills and by dancing, a festivity which in ancient times was held on the summer solstice in honor of Svlatovit, the god of sun, fire and love.

On Easter holidays from every house various kinds of food are brought into the church to be blessed by the priest, or the priest, accompanied by a sexton, goes to the house, where on a long, white covered table cake, eggs and venison await his blessing. This is called swiocone. The table remains covered with food for a week to await all friends of the house that may come.

The Polish tongue among the mountaineers has pleasant, soft inflections, and their dialect resembles the old Polish of the fifteenth or sixteenth century. The picturesque and practical costume of the goorals consists of a coarse linen shirt fastened with a brass brooch; a serdak, which is a sleeveless sheepskin jacket of a reddish color, richly decorated with applique ornaments of colored leather and silk embroidery and lined with fur; tight fitting trousers of coarse, whitish, home-made woolen cloth, and a cloak called [illegible], worn usually over one shoulder. A black felt hat shaped like a mushroom and soft leather sandals (perpce) complete a costume that weighs from thirty-five to thirty-eight pounds, but is good protection against cold and the rain which in these regions is frequent, twenty days in a month are at least [illegible].—W. T. Benda in Century.

Fort Saratoga.

The history of Old Saratoga the Schuyler and Livingston are associated. Fort Saratoga was built in 1690 by Major Peter Philip Schuyler and around it grew up a settlement which suffered many hardships during the troublous times of a hundred years. Lying on the highway from Canada to New York, the northern valley of the Hudson was in dispute in the French and Indian war, and in the Revolution the great battle of Saratoga, first victory over which the American flag waved, and one of the most decisive battles of the world. The actual battleground is several miles away from the settlement of Saratoga, but today by many stones and tablets the brave deeds of our American forefathers are recalled. The house still stands in which Burgoyne was confined as prisoner of war, and which he escaped in time to avoid the side of battle toward victory.—Brooklyn Eagle.

A Familiar Snake.

Snake charming is a common experience with the inhabitants of India and they are familiar with any suggestions of snakes. An English nurse had a little boy who lived in the house next to hers and had his saucer of milk every day on the floor in a child's high chair. One day, hearing him talking and laughing to himself apparently, she was surprised on looking out to see him playing with the head of a cobra [illegible] spoon, saying, "Naughty, naughty snake was drinking the baby's bowl, paying no heed whatever. In that mysterious country snakes may be heard rustling in the verandas and have an unpleasant habit of shedding their skins any-

Showed the Way.

On the 4th of August, 1807, Colonel Count Reille, duke of Elchingen, having received orders to charge, turned to his men and shouted to them in a voice of thunder:

"Soldiers, I have an income of $60,000 and you haven't a farthing. Follow me on your colonel as he will follow the emperor, and do as he does."

Then he rode off as hard as he could in the direction of the enemy, and the whole regiment followed him without a single refusal.

THE GROWTH OF TROUT.

Age, Food and Temperature Seem to Have No Bearing on Size.

The Salvelinus fontinalis, which is currently but inaccurately called brook trout, was supposed for many years to be a small fish. Agassiz was largely instrumental in exploding this fallacy. It is not an uncommon thing for an angler with ordinary luck to get a six or seven pound trout of this variety. It is known that a trout may grow to weigh eleven or twelve pounds. There is, however, great difficulty in accounting for its variation in size.

In northeastern Canada there are large streams and lakes in which only fingerlings have ever been found. In the immediate vicinity of such waters three and four pound trout are quite common and seven and eight pounders are not phenomenal. In all these waters crustacea do not abound; there are no small fish of any kind except small trout. All the fish are pure fly feeders. At some places, it is true, frogs abound, but taken as a whole the difference in food supply is not an adequate explanation for the difference in growth.

There is no substantial difference in the waters as to temperature, size, origin and course. Climatic conditions are the same. The small trout taken to virgin lakes in which there are no fish have sometimes grown to a great size, have sometimes remained small and sometimes have not thriven. The anglers who haunt these waters have not yet found a satisfactory explanation of this peculiar condition of things. It is one of the mysteries which lends fascination to the art. "You never can tell what is going to happen when you go fishing."—St. Paul Dispatch.

Long Words or Short?

Which shall we prefer in speech and writing? Almost everybody will vote for the short word, and almost everybody will be voting for the best candidate. The short words are usually the strong words. They make up in muscle and liveliness what they lack in size, says the Manchester Union. And they are readily in the eyes of men who have thoughts that they wish to lodge in other minds. A man who should run out into the street and yell "Conflagration! Conflagration! Conflagration!" when his house was burning would be thought to be making a jest of the affair. And so in all matters where ideas are to be handed out quickly and clearly—the short word has first choice.

Cockfighting Among the Greeks.

The sport of cockfighting seems to have originated with Themistocles of Greece. When he was leading an army against the Persians he noted two cocks in a desperate battle. To stimulate the courage of his soldiers he pointed out the bravery of birds, and, having won his battle with the Persians, he ordered that an annual cockfight should be held to celebrate his victory. In England the records show that the first cockfight took place in 1191.

Hunger in Soup.

A Philadelphia boy who was [illegible] his face got soup in his eyes, [illegible] off a step and broke his elbow. [illegible] boys can show this to mamma.—[illegible] Post-Intelligencer.
